National Syndromic Surveillance Program (NSSP)

NSSP Update – August 2020

NSSP UPDATE

The National Syndromic Surveillance Program issues *NSSP Update* monthly to share the latest Community of Practice activities, technical and program updates, and ways in which syndromic surveillance is improving public health.

Listen to the new MMWR podcast series.

MMWR COVID-19 Briefing is a weekly podcast to update readers on the latest scientific information from CDC's COVID-19 response. In this week's episode, Dr. Charlotte Kent highlights reports about how long COVID-19 symptoms last in adults who haven't been hospitalized, efforts to keep voters safe during an election in Milwaukee, Wisconsin, and good news about rebounds in vaccination among children in New York City. Listen to the [latest episode here](#).

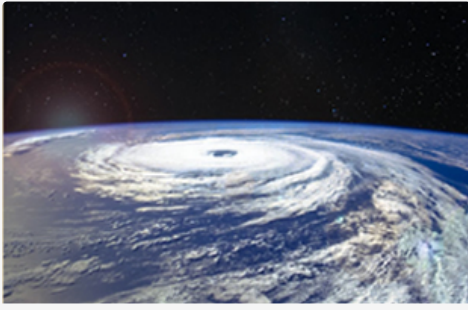

PROGRAM NEWS

CAPT Loren Rodgers Named as Acting NSSP Lead

The National Syndromic Surveillance Program (NSSP) is pleased to announce that CAPT Loren Rodgers will serve as the acting NSSP lead. Rodgers has been instrumental in enhancing the tools, data sources, and support that NSSP provides to health departments.

SYNDROMIC SURVEILLANCE IN ACTION

North Carolina Improved Situation Awareness by Working with NSSP to Integrate Emergency Data Source

North Carolina used real-time syndromic surveillance data to monitor injuries, illness, and deaths during and after Hurricane Florence. With help from NSSP, data from evacuation shelters were quickly added to make situational awareness more complete. [Read the story.](#)
