Data Sources, References & Notes: Total cases are based on data from the Centers for Disease Control and Prevention (CDC) since January 2020, including data from China, and Japan. The numbers are confirmed and probable cases reported to the CDC from the previous day. *Counts for New York City are for the State excluding data for NYC. When not available, we use American Community Survey 1-year estimates and are shown as percentages per state, and the rate (cases/100,000) per state. The 7-day expected variations in daily counts. Demographic data for counties and other websites may differ from what is posted on CDC's website with each jurisdiction. Differences between reporting jurisdictions and the process used for finding and confirming cases displayed by
