COVID-19 Viral (RT-PCR) Test Rate by State/Territory

State ⬍	Tests per 100K ⬍	% Positive ⬍
New York	98,736	0-5%
North Dakota	82,290	0-5%
Alaska	81,429	0-5%
Rhode Island	72,809	0-5%
District of Columbia	58,317	0-5%
Massachusetts	57,551	0-5%
Louisiana	50,157	6-10%
Vermont	47,823	0-5%
Maryland	47,642	6-10%
Wisconsin	46,154	6-10%
Florida	46,035	11-20%
Utah	43,317	6-10%
Tennessee	41,951	6-10%
Minnesota	41,467	6-10%
Illinois	40,818	6-10%
Iowa	39,198	6-10%
Michigan	39,182	0-5%
Indiana	37,589	6-10%
California	37,276	6-10%

CDC | Updated: Oct 2 2020 12:16PM

Disclaimer: The data presented above represent viral COVID-19 laboratory test (reverse transcription polymerase chain reaction) results from laboratories in the United States, including commercial and reference laboratories, public health laboratories, hospital laboratories, and other testing locations. The data represent laboratory test totals—not individual people—and exclude antibody and antigen tests. The data are provisional and subject to change. The data presented may not include counts for the most recent 3 days due to the time it takes to report testing information. The data may also not include results from all testing sites within a jurisdiction (e.g., point-of-care test sites) and therefore reflect the majority, but not all, COVID-19 tests in the United States. The data do not include COVID-19 antigen or antibody testing results.

The data are reported to state and jurisdictional health departments in accordance with applicable state or local law and in accordance with the Coronavirus Aid, Relief, and Economic Security (CARES) Act (CARES Act Section 18115). The data for each state are sourced from either data submitted directly by the state health department via COVID-19 electronic laboratory reporting (CELR), or a combination of commercial, public health, and in-house hospital laboratories. CELR data are used for states that either submit line-level data or submit aggregate counts that do not include antigen or antibody tests. The data are available for public use on HealthData.Gov.
