### United States COVID-19 Cases and Deaths by State

Reported to the CDC since January 21, 2020

**USA**  
**7,583,200**  
**TOTAL CASES**  
**+54,887 New Cases**  
CDC | Updated: Oct 9 2020 12:21PM

**USA**  
**212,111**  
**TOTAL DEATHS**  
**+979 New Deaths**  
CDC | Updated: Oct 9 2020 12:21PM

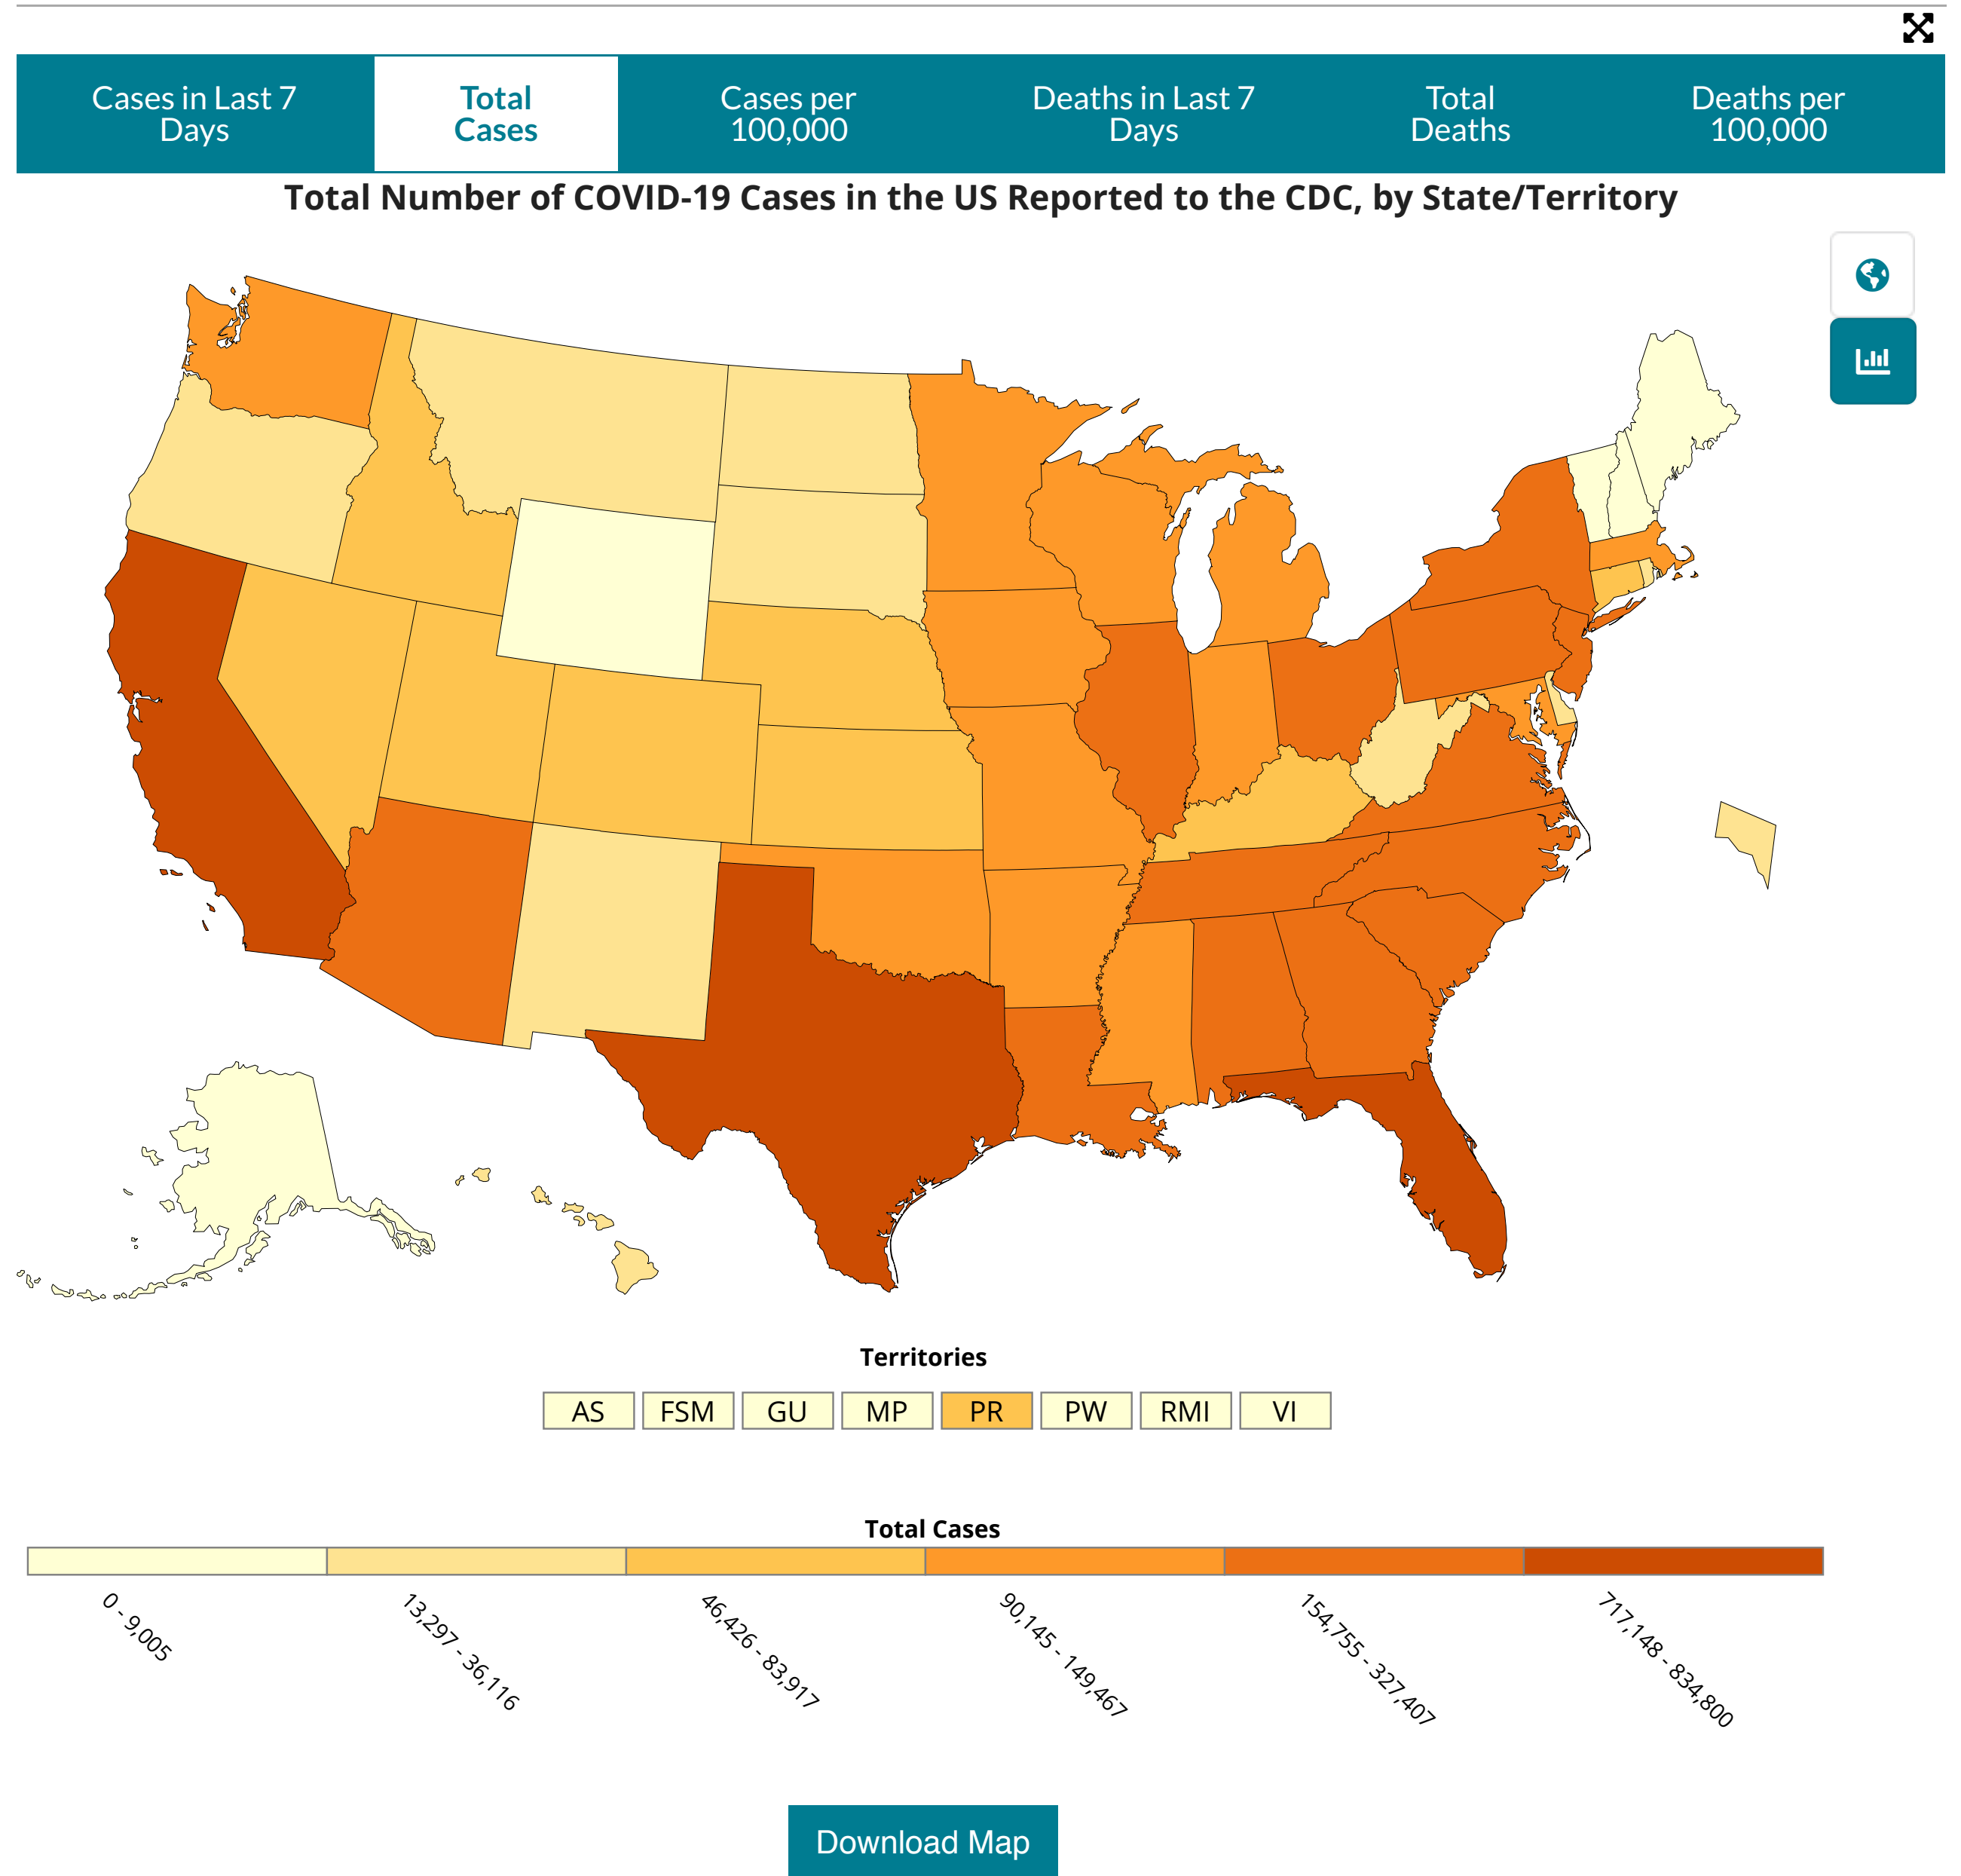

**USA**  
**322,741**  
**Cases in Last 7 Days**  
CDC | Updated: Oct 9 2020 12:21PM

#### Total Cases by State/Territory

State/Territory	Total Cases	Confirmed Probable	
		Confirmed	Probable
California	834,800	N/A	N/A
Texas	781,794	N/A	N/A
Florida	717,148	N/A	N/A
Georgia	327,407	N/A	N/A
Illinois	313,439	310,700	2,739
New York City*	250,037	243,975	6,062
North Carolina	225,397	219,162	6,235

**Data Sources, References & Notes:** Total cases are based on aggregate counts of COVID-19 cases reported by state and territorial jurisdictions to the Centers for Disease Control and Prevention (CDC) since January 21, 2020, with the exception of persons repatriated to the United States from Wuhan, China, and Japan. The numbers are confirmed and probable COVID-19 cases as reported by U.S. states, U.S. territories, New York City, and the District of Columbia from the previous day. \*Counts for New York City and New York state are shown separately; data for New York State show total cases and deaths for the State excluding data for NYC. When not available to CDC this is annotated by N/A. Rates are calculated using U.S. Census Bureau, 2018 American Community Survey 1-year estimates and are shown as cases/100,000 people. The map shows total cases per state, new cases in the last 7 days per state, and the rate (cases/100,000) per state. The 7-day moving average of new cases (current day + 6 preceding days / 7) was calculated to smooth expected variations in daily counts. Demographic data for deaths is based on a subset of cases where case-level data is available. Case numbers reported on other websites may differ from what is posted on CDC's website because CDC's overall case numbers are validated through a confirmation process with each jurisdiction. Differences between reporting jurisdictions and CDC's website may occur due to the timing of reporting and website updates. The process used for finding and confirming cases displayed by other sites may differ.
