Compare Trends in COVID-19 Cases and Deaths in States in the US Reported to CDC

USA

7,694,865

TOTAL CASES

+53,363 New Cases

CDC | Updated: Oct 11 2020 12:20PM

USA

213,614

TOTAL DEATHS

+577 New Deaths

CDC | Updated: Oct 11 2020 12:20PM

USA

2,325

Cases per 100,000 People

CDC | Updated: Oct 11 2020 12:20PM

Cumulative cases

Day	CA	FL	IL	MO	TX	WI
1	135	142	160	183	401	155
2	152	195	288	255	507	206
3	175	299	422	356	507	281
4	224	393	585	502	507	381
5	264	510	753	670	715	416
6	311	706	1049	838	974	457
7	369	937	1285	903	1396	585
8	447	1141	1535	1031	1731	707
9	506	1272	1865	1227	2052	842

CDC | Updated: Oct 11 2020 12:20PM

Data Sources, References & Notes: Total cases are based on aggregate counts of COVID-19 cases sent by state and territorial jurisdictions to the Centers for Disease Control and Prevention (CDC) since January 21, 2020, with the exception of persons repatriated to the United States from Wuhan, China, and Japan. Case and death data are charted from date of first case/death rather than calendar date. The numbers are confirmed and probable COVID-19 cases as reported by U.S. states and U.S. territories. When not available to CDC, this is annotated by N/A.

Rates are calculated using U.S. Census Bureau, 2018 American Community Survey 1-year estimates and are shown as cases/100,000 people. The chart shows total cases per state, new cases in the last 7 days per state, and the rate (cases/100,000) per state. The 7-day moving average of new cases (current day + 6 preceding days / 7) was calculated to smooth expected variations in daily counts.

Case numbers reported on other websites may differ from what is posted on CDC's website because CDC's overall case numbers are validated through a confirmation process with each jurisdiction. Differences between reporting jurisdictions and CDC's website may occur due to the timing of reporting and website updates. The process used for finding and confirming cases displayed by other sites may differ. *Counts for New York City and New York state are shown separately; data for New York State show total cases and deaths for the State excluding data for NYC.
