CDC COVID Data Tracker

Maps, charts, and data provided by the CDC

Compare Trends in COVID-19 Cases and Deaths in the US

Reported to the CDC by State or Territory

View: Cases, Deaths

Measure: Daily, Cumulative

Metric: Raw Totals, Rate per 100,000

Scale: Linear, Logarithmic

Select up to 6 states or territories:

California × Florida × Illinois × Ohio × Pennsylvania × Texas ×

Show full US Data (available only with logarithmic scale)

New deaths attributed to Covid-19, reported to CDC, in CA, FL, IL, OH, PA, and TX

Seven-day moving average of new deaths, reported by state or territory

View and Download COVID-19 Case Surveillance Public Use Data

Data Sources, References & Notes: Total cases are based on aggregate counts of COVID-19 cases sent by state and territorial jurisdictions to the Centers for Disease Control and Prevention (CDC) since 2020. Data are updated daily. Population estimates are from the United States Census Bureau, Population Division, Annual Estimates of the Resident Population for the United States, Regions, States, and Puerto Rico Commonwealth: July 1, 2019. Cases and deaths are counted from the date of the laboratory test result or the date the case was first reported to U.S. states and U.S. territories. More information is available for CDC, this is announced by NHSN.

Rates using U.S. Census Bureau, 2019 American Community Survey 1-year estimates are shown as cases/100,000 people. The chart shows total cases per state, new cases in the last 7 days per state, and the case/100,000 per state. The 7-day moving average of new cases (current day + 6 preceding days / 7) was calculated to smooth expected variations in daily counts.

Case numbers reported on other websites may differ from what is reported on CDC. Differences between CDC's overall case numbers are validated through a confirmation process with each jurisdiction. Differences between reporting jurisdictions and CDC's website may occur due to the timing of reporting and validation. Differences in the number of deaths and reporting criteria cases displayed by other sites may differ. *Counts for New York City and New York state are shown separately; data for New York State show total cases and deaths for the State excluding the NYC.
